Highlights - DemoStats - Variable

This is a variable weighted report; it analyzes the neighbourhoods (DA) where you find projected variable households, weights the demographics of the neighbourhoods and compares those demographics to the benchmark demographics. The Highlights - DemoStats - Variable report helps answer the question: What are the key demographics for the variable of interest?

DemoStats 2021 | Demographic Highlights

Variable: Opticks Vividata 2021 - 2021 Fitness Activities - Participated [Pst Yr] - Health/Fitness Club [Freq] - 10+ Times (P)

Threshold: 25%

The **Variable** that the report is ranked against is at the top of the report. The **Threshold** is also at the top of the report, and indicates the top percent of neighbourhoods with the greatest concentration of the variable. The default is 25% meaning that only the top 25% of neighbourhoods is represented in the report. The threshold can be increased up to 100%, indicating that all neighbourhoods where the variable households are found are included.

For household income, the % and Base % values are in dollar amounts.

Focus on the Index value in this report. The Index values determine how similar or different the variable households are compared to the benchmark (Base) households. A quick glance at the Index values for Age of Education shows an above-average Index for households with a University Degree frequenting a Health/Fitness Club 10+ times in the past year.

%: The weighted proportion of the population or households in the customer file that exhibits that behavior.
Base %: The percentage of the population or households in the benchmark that exhibit that behavior.
Index: Measures if the households in the variable households are more or less likely to exhibit a behavior when compared to the benchmark. An Index of 100 is average. Indices above 100 are above average or over-represented. Indices below 100 are below average or under-represented.

Area of Interest: Ontario - The **Area of Interest** - also referred to as the Base Area or Base- indicates the geographic extent for the report
